Slight skin eruptions are a warning of something more serious to come. The Only Safe Way to Head the Warning, Johnston's Sarsaparilla.

Nature, in her efforts to correct mistakes, which mistakes have come from careless living, or it may be from ancestors, shoots out pimples, blotches and other imperfections on the skin, as a warning that more serious troubles may come. Pimples, blotches and other skin eruptions are certain to follow if you neglect to heed the warning and correct the mistakes.

Many a lingering, painful disease and many an early death has been avoided simply because these notes of warning have been heeded and the blood kept pure and bright.

Miss Abbie J. Rando, of Marshall, Mich., writes:

"I was cured of a bad humor after suffering with it for five years. The doctors and my friends said it was no use telling me to get out on my head, neck and ears, and then on my hair, for I was perfectly raw with it. What I suffered during those five years, is no word of them. Nobody would believe me if I did. I tried every medicine that was advertised to cure it. I spent money enough to buy a house. I heard JOHNSTON'S SARSAPARILLA highly praised for it. I began to improve right away, and when I had finished the third bottle I was completely cured. I have never had a touch of it since. I never got any thing to do me the least good till I tried JOHNSTON'S

It Opened the Hearts and Purges of the Jerichoans.

[Copyright, 1906, by G. B. Lewis.]

The Wilder Jackson, relict of Tom Jackson, had been one of us in Jericho for 15 years. She married somehow to take care of herself until a long, lingering sickness came, and even then she suffered for care rather than let anyone know her situation.

I talked out, however, and Jabez Thoms was one of the first to hear of it. He dropped into the postoffice one evening and told about it and then said to the crowd:

"Feller Citizens—If Jericho has a persecution is along place, it's our situation. No man, woman or child ever sit cold upon her in vain. It has bin his pride and our boast that we was a community with a heart to feel for the sorrowers of others. Up there on the hill, as I

Trucker's Favorite. It is of good seld, a good supplier and fine flavor, but it has a pink skin, which in some markets is a disadvantage. Royal Red makes a large, handsome fruit, but in no way equals Stone as a dropper. Earlsiana simply cropped itself to death. We were able to gather some of the early fruits of good quality, but in mid-season and late the fruits were not properly colored and were poor in quality. The vine sets seed that cannot finish them. Trophy is still an acceptable fruit, not so early as Stone.

Early Michigan, grows this season for the first time, was well liked. From medium in size of high quality and the vine apparently a good yielder.

"The artist eyed us rather queerly and our hearts began to fall. After a whispered consultation I was delegated to go to his office and collect for him. I was authorized to stake everything we had, even down to our good names. I stated the case briefly but eloquently, and I must have had a good impression on him, for when I had finished, he said it would be all right. The strangest part of it all to me was when he handed me a dollar bill.

"I know how it is myself," he said. "I want to make up my mind before these girls. Just hand me the dollar for the pictures when I'm through."

"That was what pleased me, and I flashed that bill before the girls with the air of a man who is doing just a month later that I learned from a brother of one of the girls that they

There is no more puzzling thing than that women will suffer great pain and discomfort and when they are told they know of some woman whom Mrs. Pinkham has helped, as the letters from grateful women are constantly being published at their own request. The same derangements which make painful or irregular periods with bad headaches and backaches, and dragging-down sensations, presently develop into those serious inflammations of the feminine organs which completely wreck health.

Mrs. Pinkham invites women to write freely and confidentially to her about their health and get the benefit of her great experience with the sufferings of women. No living person can advise you so well. No remedy in the world has the magnificent record of Lydia E. Pinkham's Vegetable Compound for absolute cures of female troubles. Mrs. Pinkham's address is Lynn, Mass.

Finally at five yards he stopped and swung his big bearded head toward me and being pliable at their own will, they lay row in the tree top, giving me a profile view, and I snapped the camera. At the click he turned on me with a thunderous growl, and I sat still waiting for the next round. If my last moment had come. For a second he glared at me, and I could note the little green electric lamp in each of his eyes. Then he slowly turned and picked up a long tube of film.

"Goodness," I thought, "is he going to throw that at me?" But he deliberately flicked it out, dropped it and took another, paying tremendous heed to whatever else he said to me. Johnny, evidently considering us equally beneath his notice.—E. Seton-Thompson.

One has to compare corns of different years, and these comparative distinctions in the time of ripening amount to but very little. In our experience, with the exception of Honor Bright and Trophy, which are late, the last season's crop there is very little difference in all the host. This season Stone was the first to ripen, and very large perfect fruits were gathered.

Genesee Pure Food Co., Le Roy, N. Y.: Gentlemen:—Our family realize so much from the use of GRAIN-O that I feel I must say a word to induce others to use it. If people are interested in their health and the welfare of their children, they will use no other beverage. I have used them all, but GRAIN-O I have found superior to any, for the reason that it is solid grain.

Yours for health, C. F. MILES.
